

APEX

Karim Rashid, 2015

Apex is a wall lamp that is distinguished by its elegant, streamlined design and eye-shaped center. Each end of the lighting fixture tapers off and almost disappears into its surroundings, while at the same time emitting a powerful, functional blade of light. Apex can be installed horizontally or vertically.

TECHNICAL SHEET

Wall lamp. Die-cast aluminum body, gloss-lacquered in white and black or polished. Indirect light emission. Dimmable electronic ballast included (1:10V).
