

CAMEO

Claesson Koivisto Rune, 2023

When we speak of a “cameo” in a film or play, we mean the brief and discreet appearance of a famous character. In the same way, CAMEO, the new light by FontanaArte designed by Studio Claesson Koivisto Rune, is a lamp with character and personality, essential and fundamental in its function without being the star of the room. It is a lamp that can go unnoticed by the unobservant gaze of the person who observes the environment as a whole and does not dwell on the details.

Rechargeable table lamp, made of blown glass. Glossy white blown glass paired with a chrome metal frame. The decorative metal ring, positioned on the diffuser, is made of the same material and finish as the base and features the serigraphed FontanaArte logo. Integrated and dimmable LED light source. A transparent touch button allows for turning the lamp on and off and adjusting the light intensity. The lamp is powered by a rechargeable battery with an 8-hour lifespan, rechargeable via the included USB cable. Wall plug adapter not included in the package. Suitable for indoor and outdoor use.
