

THALEA

P. Rizzatto & F. Librizzi, 2023

Thalea, created by Paolo Rizzatto and Francesco Librizzi, is a series of coloured glass and aluminium lampshades. Thanks to an innovative joint, it offers configurations inspired by Renaissance art. With two light sources, it combines design and functionality, reflecting FontanaArte's style.

Suspension lamp with indirect light, aluminium frame and coloured glass diffusers. Integrated LED, height adjustable.
