

SLOT MEDIUM

David Chipperfield, 2005

A series of recessed lamps for walls or ceilings that give indirect light. The essential design creates a luminous effect similar to a blade of light on the wall.

Built-in wall/ceiling lamp with indirect and dimmable light 1-10 V. Painted formwork for plasterboard installing. Light source cover door held in position by two magnets. Bulb not included. For correct installation the lamp includes a 4mm-slit on all 4 sides.
