

IO

Claesson Koivisto Rune, 2015

Both in residential and contract spaces. The diffuser is made from die-cast aluminium and looks very solid despite its small size. It is available in a matt finish in the following four colours: graphite grey, red, white and blue. The inside is always white in order to reflect as much light as possible. ...

Wall lamp with directional light, phase cut dimmer. Painted metal frame. Thanks to its dual-axis rotation frame, it has the distinguishing feature rotating on both longitudinal and transverse axes, for total light management. The Up/Down movement on the external diffuser widens and narrows the ray of light. Integrated led.
