

FONTANA VASE

FontanaArte Design Lab, 2023

An artistic hand-blown glass vase inspired by the iconic FontanaArte abat-jour, model 1853 designed by Max Ingrand in 1954, of which it is a faithful miniature replica. FONTANA is a precious object in milky white frosted glass that decorates the space with elegant simplicity and is suitable as a unique flower vase, for creating an intimate atmosphere as a tealight candle holder or concealing an air freshener. Presented in an elegant package, Fontana Vase is the perfect gift for any occasion: a prestigious reference for design enthusiasts.
