

BILIA MINI

Gio Ponti, 1932

Nothing more than a sphere, set in an apparently impossible feat of balance, upon a cone that serves as the base. One of Gio Ponti's many compositional magic tricks, designed in 1932. The counterbalancing of two elementary geometric forms results in an original, perfectly proportioned object. An unpretentious composition, enriched by the extraordinary balance of its proportions and the stylish discretion of non-reflective materials. The light is diffused and valorized by the geometrical simplicity of the design. In designing Bilia, Gio Ponti imagined a smaller version in a range of "spray colours". From those handwritten notes of the original project, FontanaArte presents Bilia Mini in new breathtaking chromatic variations.

Table lamp with diffused light not dimmable. Frame made of brushed nickel-plated metal. Diffuser made of white blown glass with satin-finish. Transparent power cable, plug and switch. European two-pole plug. Bulb not included.
