

REGINA

Bobo Piccoli

SKU: F448810100BIWL

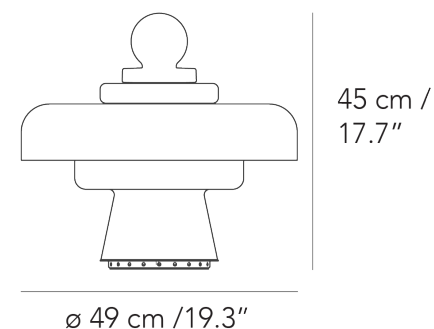

Inspired by the game of chess with their soft, sinuous shapes King and Queen are the key characters of the chessboard. Their profiles stand out sharply in the white light diffused by the opalescent glass. Vertical King, screwed around a wide horizontal Regina circumference. They can be placed side by side, or recall each other from different points in a room, or even proceed independently, each of these lamps has its own personality.

REGINA

SPECIFICHE TECNICHE
